PROVIDING SERVICES TO PERSONS WITH DISABILITIES

This policy will guide decision-making related to accessibility issues and initiatives. Our goals in the area of accessibility and customer service include:

1. COMMUNICATION

All members of our team will be trained on how to interact and communicate with persons with various types of disabilities.

2. TELEPHONE SERVICES

All members of our team will be trained to communicate over the telephone in plain language and to speak clearly and slowly. If we are notified that telephone communication is not suitable to an individual's communication needs, we will aim to find an alternative means of communication.

3. ASSISTIVE DEVICES

We will ensure that our team is trained and familiar with various assistive devices that may be used by persons with disabilities while accessing our services. We will provide a manual wheelchair if an electronic assistive device (such as a scooter or automatic wheelchair) is unable to move safely around the building.

4. BILLING

We are committed to providing accessible invoices to all people to whom we issue invoices. For this reason, invoices will be provided in alternate formats upon request. We will answer any questions about the content of the invoice in person, by telephone or e-mail, in accordance with our Privacy Policy.

USE OF SERVICE ANIMALS AND SUPPORT PERSONS

Every member of our team is required to follow the procedures outlined below when providing service to persons with disabilities:

1. SERVICE ANIMALS

We are committed to welcoming persons with disabilities who are accompanied by a service animal on the parts of our premises that are open to the public and other third parties, unless the animal is otherwise excluded by law, in which case steps will be

taken to ensure that other measures are available to enable a person with a disability to access our goods and services. We will also ensure that all team members dealing with anyone entering our premises, are properly trained in how to interact with persons with disabilities who are accompanied by a service animal.

2. SUPPORT PERSONS

We are committed to welcoming persons with disabilities who are accompanied by a support person and they will be permitted to enter the premises together. At no time will a person with a disability who is accompanied by a support person be prevented from having access to his or her support person while on the premises. We may require a person with a disability to be accompanied by a support person while on the premises, but only if a support person is necessary to protect the health or safety of the person with a disability or the health or safety of others on the premises.

NOTICE OF TEMPORARY DISRUPTION

If there is a temporary disruption of the facility or services usually used to allow a person with a disability to access goods or services, we will place notices of the disruption in appropriate locations including all entrances using a suitable medium. The notice will include information about the reason for the disruption, its anticipated duration, and a description of alternative facilities or services, if available. The notice will be given in accordance with requirements under Section 5 of the AODA.
